# Horopito – our powerhouse ingredient.

**Wondering what makes Kolorex®  
so special? Meet Horopito – the herb behind it all.**

Hailing from New Zealand's majestic rainforests, this super star plant has developed a unique ability for surviving in damp, dark conditions. How? By warding off unwanted microscopic intruders.

While long prized by New Zealand's Indigenous Maori people, we're now learning how to harness the special properties that keep these forest nasties at bay.

From this, we bring you Kolorex®.

## Sustainably farmed

We've spent decades researching and farming Horopito. From seed to plant, we use environmentally-friendly, sustainable methods for growing, caring and harvesting our crops.

# Choice, comfort and confidence. That's Kolorex®

**We have one mission:** to help you feel confident and comfortable in your body. Our story began in 1985. And we've spent every year since creating new products and fine-tuning our faves... to perfection.

Looking after your vaginal health is an important part of caring for your overall wellbeing. Why? Because a happy, healthy vagina means a happier, healthier you. With Kolorex, we'll help you care for – **and love** – your lady bits.

# and wonderful washes

When it comes to staying clean, treat your vagina like a queen. Vaginas are super sensitive, which means using plain old soap is a no-no, as it could throw your pH out of balance.

Whether you're feeling unbalanced and looking to calm and refresh your skin – or whether you want a wash that's gentle enough to use every day – our Vaginal Care Wash has you covered.
